CATEGORY F2 OR F3
FIREWORKS IN A PUBLIC
PLACE.**

Category F2 fireworks are low hazard and low noise level fireworks, intended for outdoor use in confined areas. Previously known as category 2 fireworks they usually have a minimum safety distance of 5 to 8 meters. Information will be on the label.

Category F3 fireworks are medium hazard fireworks, intended for outdoor use in large open areas and whose noise level is not harmful to human health. Previously known as category 3 these tend to have a minimum safety distance of up to 25 meters. Information will be on the label.
