Application No.: P2024/0662

Proposal: The proposed of new mansard roof extension would be invisible from the street view as demonstrated in the attached sections. Floor of the mansard roof lowered in order to minimise the visual impact from the front street view. The front face of the mansard roof has been designed to step back 1.0m from the inside face of the front parapet wall. This enables to retain the existing butterfly roofs as well as to reduce public visibility. The front and rear elevation incorporates two number modest size dormers on each elevation (sizes to match with first floor front windows) with lead dormer cheek/front wall construction. Existing parapet walls will be extended in brickwork to match existing parapet walls.

Applicant: Ms Iona Macmillan Douglas
